# Corporate Governance Report **2015**

## **PART I - INFORMATION ON SHAREHOLDER STRUCTURE, ORGANISATION AND CORPORATE GOVERNANCE**

### **A. SHAREHOLDER STRUCTURE**

#### **I. Capital structure**

##### **1. Capital structure (share capital, number of shares, distribution of the capital by the shareholders, etc.), including indication of shares not listed for trading, different categories of shares, their inherent rights and duties and percentage of share capital represented by each category (article 245-A, number 1, subparagraph a)).**

The share capital of "Teixeira Duarte, S.A." (TD,SA), of the total value of € 210,000,000.00 (two hundred and ten million euros) is represented by 420,000,000 shares with the nominal value of € 0.50 (fifty cents) each.

The shares are all ordinary, book entry, registered and listed for trading in regulated markets (EURONEXT LISBON). The shares belong to a single category, each corresponding to one vote, and there are no shares with special rights or duties.

According to the most recent information, the shares representing the share capital of TD,SA were, at the end of 2015, distributed over a total number of 5,461 shareholders, as follows:

Shareholders with up to 42,000 shares:	5,268
Shareholders with between 42,001 and 420,000 shares:	152
Shareholders with between 420,001 and 4,200,000 shares:	31
Shareholders with between 4,200,001 and 42,000,000 shares:	8
Shareholders with more than 42,000,000 shares:	2

##### **2. Restrictions on the transferability of shares, such as clauses of consent for disposal or limits to the holding of shares (article 245-A, number 1, subparagraph b)).**

There are no restrictions on the transferability of shares, namely clauses of consent for disposal or limits to the holding of shares.

##### **3. Number of own shares, corresponding percentage share capital and percentage voting rights to which the own shares would correspond (article 245-A, number 1, subparagraph a)).**

There are no own shares.

**4. Significant agreements of which the company is a party and which enter into force, are altered or cease in the event of a change of control of the company following a public take-over bid, as well as the respective effects, unless, due to their nature, their disclosure would be seriously harm the company, unless the company is specifically obliged to disclose this information due to other legal requirements (article 245-A, number 1, subparagraph j)).**

There are no agreements with these characteristics.

**5. Regime to which the renewal or revocation of defensive measures is subject, in particular those establishing limitation of the number of votes which may be held or exercised by a single shareholder, individually or in concertation with other shareholders.**

There is no statutory provision nor have any defensive measures been adopted establishing limitation of the number of votes which may be held or exercised by a single shareholder, individually or in concertation with other shareholders.

Consequently, the provisions in the present rule and in Recommendation number I.4 are not applicable to TD,SA.

**6. Shareholders' agreements that are known to the company and might lead to restrictions on matters of the transfer of securities or voting rights (article 245-A, number 1, subparagraph g)).**

As far as the Company knows, there are no agreements between shareholders, namely those which might lead to restrictions on matters relative to the transfer of securities or voting rights.

It should also be noted, for the effect of Recommendation number I.5 of the Corporate Governance Code of the CMVM, that no measures have been adopted whose effect is to demand payments or the assumption of costs by TD,SA in the event of transfer of control or change of the composition of the management board, and which might jeopardise the free transferability of shares and the free assessment by the shareholders of the performance of members of the management board.

In addition to the other duties and competence entrusted by the Law, Articles of Association or through delegation of the General Meeting, the Board of Directors is responsible for:

- exercising the full powers of management of the Company and carrying out all the acts and operations pertinent to the achievement of its corporate object;
- negotiating and granting all contracts, independently of their scope, form and nature, where the Company is a party;
- representing the Company in and out of court, actively and passively, promoting, contesting, transacting or waiving in any proceedings and engaging in all types of arbitration;
- preparing, if deemed appropriate, its internal regulations, defining the rule and procedures relative to its operation;

- proceeding with the distribution of areas of responsibility amongst its members and entrusting any of the members with specific matters of the competence of the Board of Directors;
- empowering any of its members sufficiently to, jointly or individually, perform certain tasks or specific actions;

- providing bonds and personal or real guarantees on behalf of the Company, namely sureties or securities.

The Articles of Association of the Company do not confer any powers to the Board of Directors relative to any share capital increases.

#### **10. Information on the existence of significant business relations between the holders of qualifying stakes and the company.**

Although the shareholder with a qualifying holding in the share capital of TD, SA is the Pension Fund of the Banco Comercial Português Group, the truth is that this holding has been imputed to "Banco Comercial Português, S.A."

Since 1985, the companies included in the Teixeira Duarte Group have maintained business relations with "Banco Comercial Português, S.A." and its participated companies, under normal market terms and conditions, where, as at 31 December 2015, the total value of the loans raised from this institution reached approximately 337 million euros, corresponding to 24.1% of the Group's total bank debt.

It is disclosed that the contracting of bank guarantees with "Banco Comercial Português, S.A." and its participated companies amounted to 17 million euros, representing 2.5% of the total value of the guarantees contracted by the Group.

Finally, it is disclosed that the Group also has financial lease contracts with "Banco Comercial Português, S.A." and its participated companies, of a total value of 143 million euros, corresponding to 77.5 % of the total value of these types of contracts.

There are no other significant business relations between the holders of qualifying stakes and the company.

In view of the nature of the relations being those identified above and the fact that their scope is restricted to areas that are already highly regulated and supervised by various entities, it is deemed that there is no reason that would justify the supervisory body establishing necessary procedures and criteria for the definition of the relevant level of significant business with shareholders holding qualifying stakes, or with entities which are engaged with them in any of the relations established in number 1 of article 20 of the Securities Market Code, nor that the conduct of business of significant relevance should depend on the prior opinion of this body, pursuant to Recommendation number V2.

## **B. GOVERNING BODIES, COMMITTEES AND COMMISSIONS**

### **I. GENERAL MEETING**

#### **a) Composition of the board of the general meeting**

##### **11. Identification and position of the members of the board of the general meeting and respective term of office (start and end)**

Currently, the Board of the General Meeting is composed of the following members:

Chairman: Mr. Rogério Paulo Castanho Alves, lawyer, with professional domicile at Avenida Álvares Cabral, 61 - 4º, 1250-017 Lisboa, Portugal;

Deputy Chairman: Mr. José Gonçalo Pereira de Sousa Guerra Costenla, lawyer, with professional domicile at Avenida Álvares Cabral, 61 - 4º, 1250-017 Lisboa, Portugal; and

Secretary: Mr. José Pedro Poiães Cobra Ferreira, lawyer, with professional domicile at Lagoas Park, Edifício 2, 2740-265 Porto Salvo, Oeiras, Portugal.

All the identified members of the Board of the General Meeting were elected at the General Meeting held on 30 May 2015, to perform duties in this body during the four-year period 2015/2018.

#### **b) Voting and the exercise of voting rights**

##### **12. Any restrictions on voting rights, such as limitations to the exercise of voting rights dependent on the ownership of a number or percentage of shares, periods of time imposed for the exercise of voting rights or systems privileging rights relative to assets (article 245-A, number 1, subparagraph f).**

There are no restrictions on voting rights, namely limitations to the exercise of voting rights dependent on the ownership of a number or percentage of shares, hence the periods imposed for the exercise of voting rights are the only limitations that are indicated for the case of voting by correspondence.

Furthermore, pursuant to article 13 of the Memorandum and Articles of Association, only shareholders with at least one voting right, on the registration date, corresponding to 0 hours (GMT) of the 5th business day prior to the date of the General Meeting, may participate in the General Meeting and discuss and vote therein.

Each share, under the conditions referred to above, corresponds to one vote. Although the Articles of Association foresee, in article 7, the possibility of shares without rights, the truth is that there are no, and have never been any, shares without voting rights.

For the exercise of the right to vote by correspondence and for the execution of all other procedures indicated in the Articles of Association, the Company has implemented the indispensable means for the effect, providing all the necessary forms on its website and at its head office, namely drafts of letters and the voting ballot, as well as instructions for their completion.

TD,SA believes that the specific security requirements inherent to the voting process through electronic means are very significant, namely with respect to the technical means necessary to verify the authenticity of the corresponding explanations of vote, and guarantee the integrity and confidentiality of the respective contents, and, likewise, recognises the high level of security and operational reliability required in the receipt of these explanations of vote.

Furthermore, TD,SA considers that the shareholders' participation in the General Meetings has been fully assured even when they are unable to attend in person, whether through voting by correspondence or via the existing mechanisms of representation, although the implementation of this system has never been requested, and no difficulties of participation in the General Meetings and in the exercise of voting rights have ever been noted.

The considerations referred to above and the fact that the General Meetings of TD,SA, as the leading listed company of the Teixeira Duarte Group, traditionally has a very high representation of share capital, underlie the reason why the Company has not implemented the possibility of the exercise of voting rights through electronic means.

Lastly, it should also be noted that TD,SA has not established any type of systems privileging rights relative to assets or mechanisms with the effect of causing a time lag between the right to receive dividends or the subscription of new securities and the voting right of each ordinary share.

### **13. Indication of the maximum percentage voting rights that may be exercised by a single shareholder or by shareholders which are engaged in any of the relations listed in number 1 of article 20.**

The Articles of Association of TD,SA do not stipulate a maximum percentage or maximum number of voting rights that may be exercised by a single shareholder (individually or in concertation with other shareholders) or by shareholders which are engaged in any of the relations referred to in number 1 of article 20 of the Securities Market Code.

### **14. Identification of shareholder deliberations, through statutory imposition, that may only be taken with a qualifying majority, apart from those legally established, and indication of these majorities.**

There are no statutory provisions which impose qualifying majority quorums for the deliberation of the shareholders on specific topics, apart from those legally established.

Indeed, article 16 of the Articles of Association establishes that "the deliberations of the General Meeting are taken by the majority of the votes cast, without prejudice to the legal provisions which, in certain cases, might require qualifying majorities or establish other forms of acceptance of the proposals".

## II. MANAGEMENT AND SUPERVISION

### (Board of Directors, Executive Board of Directors and General and Supervisory Board)

#### a) Composition

##### 15. Identification of the adopted governance model

Since its incorporation on 30 November 2009, TD,SA has adopted a Corporate Governance model known as the Latin reinforced board structure or one-tier model, whose governing bodies comprise, in addition to the General Meeting and its respective Board, a Board of Directors and two autonomous Supervisory Bodies: the Supervisory Board and Chartered Accountants Firm.

On this issue, it is important to note the existing collaboration between all these structures of the Group, as well as the advantages arising from these synergies, reflected in the privileged and effective manner of the achievement of objectives undertaken by all as collection action.

The adopted governance model fully complies with its underlying objectives, that is, ensuring that TD,SA maintains good levels of operation and efficiency in the performance of duties by each governing body, both independently and jointly, with this model thus proving to be appropriate to the *modus operandi* of TD,SA, its structures and members of the governing bodies, in particular of the Board of Directors.

##### 16. Statutory rules on procedural requirements and matters applicable to the appointment and replacement of members, as applicable, of the Board of Directors, Executive Board of Directors and General and Supervisory Board (article 245-A, number 1, subparagraph h)).

Regarding the rules applicable to the appointment and replacement of the members of the management body, it should be recalled that they are elected at the General Meeting, through the list system, for four years, coinciding with the financial years, and may be re-appointed once or twice, under the terms and the legally established limits, and take up office as soon as they are elected, without further formalities.

Under the special election rules established in the Law, TD,SA has adopted the systems which enables a Director to be elected amongst the persons proposed in lists which are undersigned and presented by groups of shareholders, provided that none of these groups own shares representing more than twenty percent and less than ten percent of the share capital. Pursuant to this choice, any Director elected in this manner automatically replaces the one last on the list who would have fallen due in the election of the Directors.

The Articles of Association do not foresee the existence of any alternate Director, but rather establish five as the number of absences to meetings, consecutively or interspersed, without justification accepted by the Board of Directors, per term of office, as leading to the situation of definitive absence of the Director, with the consequences established in the Law.

Apart from the circumstances referred to above, the Articles of Association do not establish any specific rule for the replacement of the members of the Board of Directors, so the general system established in the Commercial Companies Code on this matter is applicable, that is, the Board of Directors may replace any Director who fails to perform duties for any of the reasons laid down in the Law, namely due to resignation or the accumulation of absences, and hence, should this be deemed appropriate and under the applicable terms and conditions, proceed with the corresponding co-optation, which must be ratified at the first following General Meeting.

**17. Composition, as applicable, of the Board of Directors, Executive Board of Directors and General and Supervisory Board, indicating the minimum and maximum statutory number of members, statutory duration of the term of office, number of permanent members, date of the first appointment and date of the end of term of office of each member.**

Under article 17 of the Articles of Association, the Board of Directors should be composed of a minimum number of five and maximum of eleven members. Furthermore, when electing this Board, the General Meeting should determine the number of Directors which, within these limits, should comprise the Board for each term of office and appoint, among them, the member who will perform the duties of Chairman. The Articles of Association do not foresee the existence of alternate members.

Under the terms of number 2 of article 10 of the Articles of Association, the members of the governing bodies are elected for periods of four years, as noted above.

They were later re-elected for the 2011/2014 term of office, and at the General Meeting of 30 May 2015, once again re-elected to hold office until the end of the current term of 2015/2018.

**18. Distinction between the executive and non-executive members of the Board of Directors and, regarding non-executive members, identification of members who may be considered independent, or, if applicable, identification of the independent members of the General and Supervisory Board.**

**18.1. The independence of the members of the General and Supervisory Board and the members of the Audit Committee is appraised under the terms of the current legislation and, regarding the other members of the Board of Directors, members are considered independent when they are neither associated to any specific group of interests in the company nor in any circumstance which might affect the impartiality of their analysis or decision-making, namely due to:**

- a. Having been an employee of the company or companies which are in a controlling or group relationship with the former during the last three years;**
- b. Having, in the last three years, provided services or established significant business relations with the company or companies which are in a controlling or group relationship with the former, whether directly or as a partner, administrator, manager or director of a legal person;**
- c. Being a beneficiary of remuneration paid by the company or companies which are in a controlling or group relationship with the former in addition to the remuneration arising from the performance of directorship duties;**
- d. Living in non-marital cohabitation or being the spouse, parent or family member in a straight line and up to the 3rd degree, inclusively, in a collateral line, of directors or natural persons who directly or indirectly hold a qualifying stake;**
- e. Holding a qualifying stake or representing a shareholder holding a qualifying stake.**

The Board of Directors is exclusively composed of executive members, which is reflected in the effectiveness, operationality and proximity of the matters entrusted to them.

TD,SA has chosen to maintain all its Directors in executive duties since the duties which would have been entrusted to any non-executive Directors – namely regarding supervision, monitoring and assessment of the activity of the executive members – are carried out by the Supervisory Board, Remuneration Committee and General Meeting.

In fact, the total independence and compatibility of the members of the Supervisory Board allows for impartial and useful intervention in the supervision of the Company's activity, not only from an accounting point of view – where it benefits from the regular intervention of the Chartered Accountants Firm – but also from a policy perspective, in this case with the appropriate limits and scope essential to safeguard compliance with the legal and regulatory rules in force, all with a view to achieving constant transparency and compliance with proper levels of disclosure of information to the market in general and to the shareholders, especially at the General Meeting.

In view of the adopted corporate model, the composition and mode of operation of its governing bodies – namely the executive character of the Board of Directors and the independence of the Supervisory Board and Chartered Accountants Firm, without their being any delegation of competence, either amongst them or to other Committees – TD,SA considers that the appointment of non-executive members to perform duties within the Board of Directors would not result in any significant benefits to the good operation of the adopted model, which has proved suitable and efficient.

This justifies TD,SA's decision not to include non-executive members in the Board of Board of Directors for the monitoring, supervision and assessment of the activity of the remaining members of this board, as established in Recommendation number II.1.6. Therefore, considering that all the members of the Board of Directors perform executive duties, the present regulatory standard is not applicable to TD,SA's reality.

Nevertheless and on this issue, it is important to disclose, with respect to the independence of its members, that the Board of Directors considers that none are under any circumstances capable of affecting their impartiality in analysis and decision-making.

Particular note should also be made of the good interrelations between all the governing bodies, not only between the Chartered Accountants Firm and the Supervisory Board, which hold periodic meetings, but also between these bodies and the Board of Directors, whereby all the Directors have provided the information requested by the other members of the governing bodies in due time and in an appropriate manner.

It should also be noted that, pursuant to the principle of close collaboration between the governing bodies, for the effect of the provisions in Recommendation number II.1.9, the Chairman of the Supervisory Board is called to all the meetings of periodic nature and for the approval of the documents presenting the accounts, and is sent copies of the call notices and minutes of all the meetings of this board.

However, these documents are not sent directly by the Chairman of the Board of Directors, as indicated in this recommendation. These tasks are performed, through indication of the Chairman of the Board of Directors, by the Company Secretary who delivers copies of the call notices and minutes of the Board of Directors meetings to the Chairman of the Supervisory Board, after they have been duly signed.

Moreover, it should be added that, although the Chairman of the Board of Directors performs executive duties, since there are no non-executive directors, the Recommendation in number II.1.10 is not applicable to TD,SA. This recommendation notes that, if chairman of the board of directors performs executive duties, this board should indicate, from among its members, an independent director to assure the coordination of the work of the other non-executive members, and the conditions to enable them to take decisions in an independent or informed manner or find other equivalent mechanisms to assure this coordination.

**21. Organisational charts or flowcharts relative to the distribution of competence between the different governing boards, committees, commissions and/or departments of the company, including information on the delegation of competence, in particular with respect to the delegation of the daily management of the company.**

The Articles of Association of the Company define the competence of each of the governing bodies, namely in articles 12 (General Meeting), 19 (Board of Directors) and 23 (Supervisory Board and Chartered Accountants Firm).

There is no distribution or delegation of competence by any of the governing bodies, namely by the Board of Directors, to any specific committees or commissions, in particular an Executive Committee.

This circumstance essentially arises from the fact that the Board of Directors is exclusively composed of executive members, which is reflected in effectiveness of operability and proximity to the matters of their competence, whereby any delegation in this regard would be redundant and counterproductive.

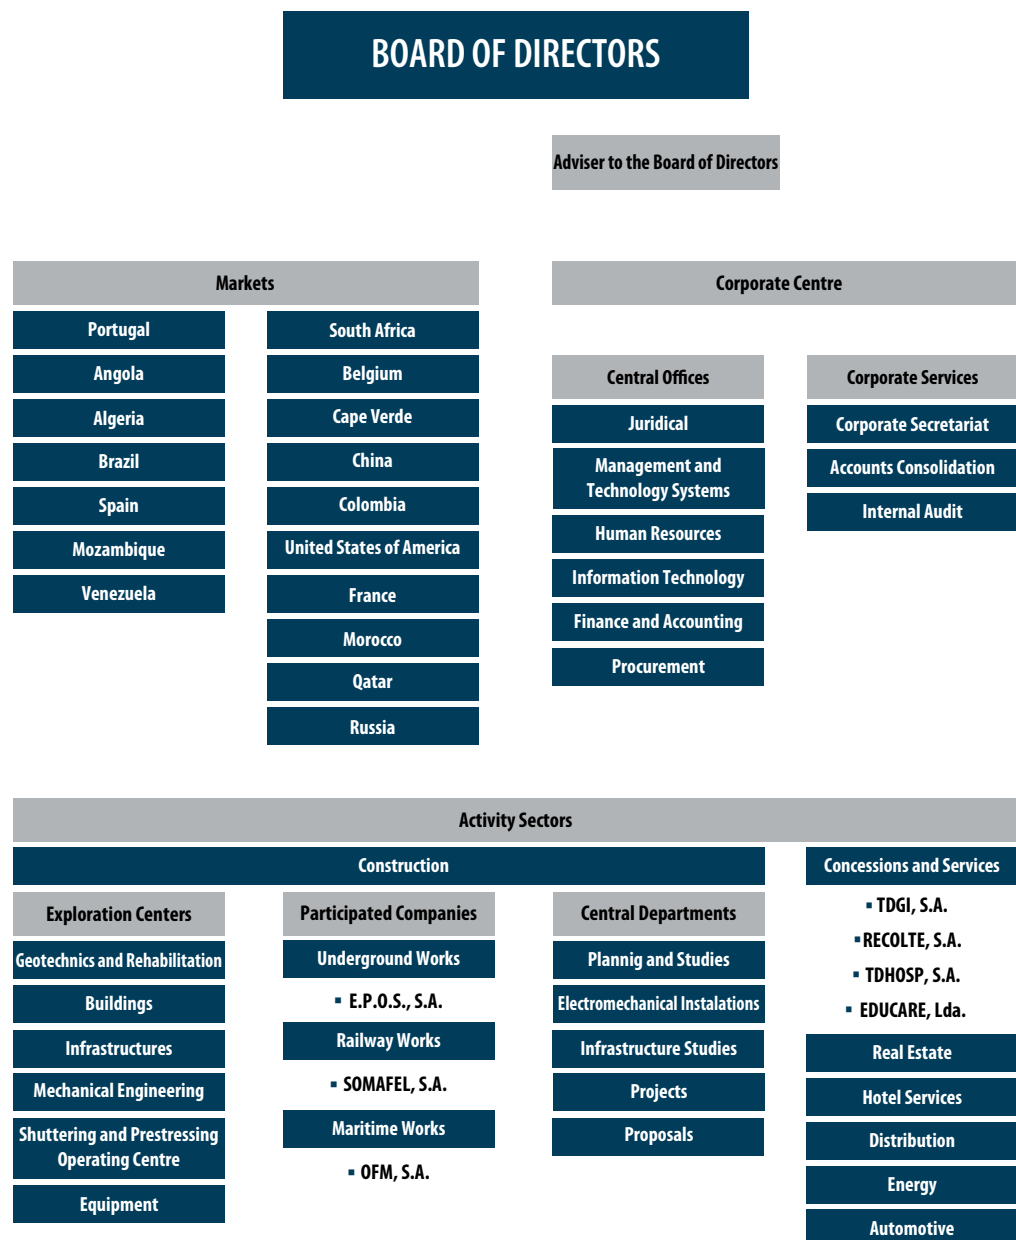

Notwithstanding the above, the general organisational lines defined by the Board of Directors for the Group, established as at 31 December 2015, aim to:

- a) Maintain a series of Central Departments with special responsibilities of transversal support to the action developed in the different business sectors included in the Corporate Centre, entrusted with promoting a standardisation of procedures and providing support to the Group's structures operating abroad in these areas common to various businesses, even though some may be included under TD,SA and others under its subsidiary Teixeira Duarte - Engenharia e Construções, S.A.;
- b) Organise the Group's Operating Structures by Activity Sector, which will cover the responsibility for all the teams and operations of these business areas, regardless of the geographic market in which they operate, thus also acting to draw the technical and human central resources of the Group closer to those operating in the different markets of TD,SA;

- c) Highlight the trade name of certain operations included in the Group which, in view of the particularity of their business, should maintain their individuality, especially in the Construction, Concessions and Services sectors;
- d) Strengthen Teixeira Duarte - Engenharia e Construções, S.A. as the company focused on the Construction sector:
  - d.1) Maintaining the development of its action through Operating Centres, which divide up the production areas and are essential for the training of managerial staff and follow-up of their career;
  - d.2) Maintaining a series of Central Departments with specific scope of action in the provision of specialised support to the Operating Centres, in particular in the areas of Studies, Projects and Proposals;
  - d.3) Maintaining the coordination and interaction of the activity of the companies in which the Group has a stake which operate in the Construction sector through the Board of Directors of "Teixeira Duarte - Engenharia e Construções, S.A.";
- e) Maintain, under the Board of Directors of "Teixeira Duarte – Engenharia e Construções, S.A." and from an operational perspective, an Operational Executive Committee, which should coordinate the action of the Operating Centres and companies in which the Group has a stake in this Construction sector;
- f) Maintain close relations between the Boards of Directors of TD,SA and "Teixeira Duarte – Engenharia e Construções, S.A.";
- g) Strengthen the firmness and efficacy of the bonds of unity within the Teixeira Duarte Group through the direct connection of the Board of Direction with the Group's Delegates in the different countries, which represent the management body therein, undertaking the Group's institutional representation, as well as the connection with the structures of the various Sectors and Corporate Centre which operate in these markets and the implementation of practices to optimise the operability of the Group's companies, taking into account the particularities of each country.

These guidelines were also reflected in the organisational chart of the Teixeira Duarte Group, which was in force as at 31 December 2015 and is reproduced below:

## TEIXEIRA DUARTE ORGANIZATIONAL CHART 2015

## b) Operating

### **22. Existence and location where the operating regulations may be consulted, as applicable, of the Board of Directors, General and Supervisory Board and Executive Board of Directors.**

There are no operating regulations.

In view of the chosen corporate model, the composition of the Board of Directors (all the members are executive) and the fact that the competence and responsibilities of this body cannot be delegated to any other bodies, specialised committees, commissions or departments, the mode of operation of the Board of Directors is fairly simplified, added to the fact that the number of members included in this body is not of a sufficiently size to justify the stipulation, in regulations, of further rules on operationality.

The individual competence of each member is established by deliberation of the actual Board of Directors and their interaction is maintained in a regular form under the legally stipulated terms and considered sufficient for this purpose.

Notwithstanding the above, we disclose that the "Code of Ethics and Conduct of Teixeira Duarte" was approved by deliberation of the Board of Directors of TD,SA on 24 April 2014, being applicable to all the entities integrated in its consolidation perimeter and management scope and to all their employees, including the members of the governing bodies.

This document establishes, in a new version, the transversal principles of action for all Teixeira Duarte Group employees and in this way, the Company's dealings with the related parties. While this Code acts to strengthen and develop Teixeira Duarte's Mission and Values, it contains absolutely no regulatory provisions on the operating of the governing bodies or other pertinent regulations in this context.

### **23. Number of meetings held and level of attendance of each member, as applicable, of the Board of Directors, General and Supervisory Board and Executive Board of Directors, of the meetings that have been held.**

During 2015, the Board of Directors of TD,SA held 29 meetings.

For all due purposes, it is disclosed that the attendance of each member of this Board was as follows:

The Chairman of the Board of Directors, **Pedro Maria Calainho Teixeira Duarte**, attended all the meetings of this body.

The Director **Manuel Maria Calainho de Azevedo Teixeira Duarte** attended 26 meetings of the Board of Directors and was represented by the Chairman of the Board of Directors at the three meetings he was unable to attend, with these absences having been previously announced and articulated with the rest of the Directors.

The Director **Joel Vaz Viana de Lemos** attended 28 meetings of the Board of Directors, with his single absence having been previously announced and justified by other prior professional commitments and articulated with the other members of the Board.

The Director **Carlos Gomes Baptista** attended 24 meetings of the Board of Directors and was represented by the Chairman of the Board of Directors at one of the four meetings he was unable to attend, with all his absences having been previously announced and justified by other prior professional commitments and articulated with the other members of the Board.

The Director **Diogo Bebiano Branco de Sá Viana Rebelo** attended 26 meetings of the Board of Directors and was represented by the Chairman of the Board of Directors at one of the four meetings he was unable to attend, with all his absences having been previously announced and justified by other prior professional commitments and articulated with the other members of the Board.

The Director **Jorge Ricardo de Figueiredo Catarino** attended 25 meetings of the Board of Directors, with all his four absences having been previously announced and justified by other prior professional commitments and articulated with the other members of the Board.

#### **24. Indication of the governing bodies which are competent to carry out the assessment of the performance of the executive directors**

The competent body for the assessment of the performance of the Company's Directors, all of whom are executive, is the General Meeting, which, under the terms of number 1 of article 376 of the Commercial Companies Code, carries out an annual general assessment of the management and supervision of the Company.

The Supervisory Board monitors, under the established terms described in this document, the action of the Board of Directors, ensuring compliance with a series of matters and issuing an opinion on the annual report and accounts which is submitted to the appraisal of the shareholders at the General Meeting.

Moreover, the Remuneration Committee assesses the activity developed by each Director for the purpose of establishing the respective remuneration, based on the remuneration policy approved at the General Meeting.

Furthermore, it is disclosed that due to the organisational and functional model established for the different governing bodies, it was not considered worthwhile creating the committees or commissions referred to in Recommendation number II.1.4 a) for the purpose of assuring a competent and independent assessment of the performance of the executive Directors and their overall performance. Therefore, as described, there are no commissions or committees.

Indeed, in view of the adopted model and the structure and composition of the Governing Bodies, these duties are explicitly entrusted to the General Meeting, Supervisory Board and Remuneration Committee, under the terms indicated above.

Likewise and for the same reasons, it was considered that it was unnecessary to create the committee or commission referred to in Recommendation number II.1.4 b) to reflect on the adopted governance system, structure and practices, verify their effectiveness and propose to the competent bodies the measures to take with a view to their improvement.

These duties are performed by each of the Governing Bodies which, better than any other body created only for this effect, are successful in identifying any constraints and difficulties which might have been encountered, and in the same way, collaborate together in the assessment of the adopted corporate governance model, reporting and overcoming any operational and interaction difficulties.

Ultimately, the overall assessment of the action of the governing bodies is always entrusted to the shareholders at the General Meeting.

## **25. Predefined criteria for the assessment of the performance of the executive directors.**

There are no predefined criteria for the assessment of the performance of the Executive Directors. Indeed, all the Directors are assessed in accordance with their respective performance during the year, based on fixed and achievable objectives, the Company's net income and various other parameters which, due to their diversity and variation over the years, are not to be considered exhaustive but rather adaptable to the circumstances of each period and each specific situation, pursuant to the remuneration policy approved annually at the General Meeting.

On this issue, see the remuneration policy of the Executive Board of Directors, reproduced below in point 69.

## **26. Availability of each member, as applicable, of the Board of Directors, General and Supervisory Board and Executive Board of Directors, indicating positions held simultaneously at other companies, within and outside the group, and other relevant activities performed by the members of these bodies during the financial year.**

All the members of the Board of Directors of TD,SA have dozens of years "in-house", with professional paths conducted almost exclusively within the Teixeira Duarte Group, where, according to the Group's areas and sectors of action they supervised or monitored, they were appointed to other corporate positions. This also enabled them to report information to TD,SA on the action of these same entities and their corresponding implementation of the guidelines defined for the Teixeira Duarte Group.

However, there are various occasional situations of corporate positions held in other entities outside the Teixeira Duarte Group, where none of these Directors earn remuneration or are professionally bound to these entities, or subject to any circumstances which hinder their total availability to perform their duties as a member of the Board of Directors of TD,SA.

### **c) Committees and commissions within the management or supervisory body and chief executive officers**

#### **27. Identification of committees and commissions within, as applicable, of the Board of Directors, General and Supervisory Board and Executive Board of Directors, and location where the operating regulations may be consulted.**

Currently, there are no specific committees or commissions on management or supervisory matters; and nor can the foreseen Executive Committee be constituted under article 20 of the Articles of Association.

#### **28. Composition, if applicable, of the executive committee and/or identification of chief executive officer(s).**

Considering that there is neither an Executive Committee nor Chief Executive Officers, the present rule is not applicable to TD,SA.

#### **29. Indication of the areas of competence of each of the created committees and commissions, and summary of the activities developed during performance of this competence.**

Considering that there are no committees or commissions created under the Board of Directors, as noted in 2.7 above, the present rule is not applicable to TD,SA.

## **III. SUPERVISION**

### **(Supervisory Board, Audit Committee or General and Supervisory Board)**

#### **a) Composition**

#### **30. Identification of the supervisory body (Supervisory Board, Audit Committee or General and Supervisory Board) corresponding to the adopted model.**

The adopted corporate model is usually referred to as the Latin reinforced model, accordingly the appointment of a Supervisory Board was selected as the supervisory body.

**31. Composition, as applicable, of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee, indicating the minimum and maximum statutory number of members, statutory duration of the term of office, number of permanent members, date of the first appointment and date of the end of term of office of each member. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 18.**

Pursuant to article 24 of the Articles of Association of TD,SA, the Supervisory Board is necessarily composed of three permanent members and one alternate, who should comply with the requirements and are entitled to use the powers established by law. When electing the members of this Board, the General Meeting must, mandatorily, elect one of them to perform the duties of Chairman.

As is the case with the other governing bodies and under the terms of number 2 of article 10 of the Memorandum and Articles of Association, the members of the Supervisory Board are elected at the General Meeting, through the list system, for periods of four years, coinciding with the financial years, and may be re-appointed once or twice, under the terms and with the legally established limits.

The Supervisory Board is currently composed of the following members:

Chairman: Óscar Manuel Machado de Figueiredo

Members: Mateus Moreira

Miguel Carmo Pereira Coutinho

Alternate: Rui Pedro Ferreira de Almeida

The Chairman of the Supervisory Board was elected by the Shareholders on 31 May 2014 as Alternate of this board, having taken office as a permanent member on 7 November 2014 - following the resignation submitted by the former Chairman. He was appointed Chairman of the Supervisory Board at the meeting of this board on 5 December 2014, having been elected as Chairman of the Supervisory Board at the General Meeting of 30 May 2015, to perform duties during the current term of office 2015/2018.

The Members of the Board of Directors, Mr. Mateus Moreira and Miguel Carmo Pereira Coutinho were appointed for the first time at the time of the incorporation of the company on 30 November 2009, to perform duties during the term of office 2009/2010, and were re-elected to their respective positions at the General Meeting of 30 May 2015, to perform duties during the current four-year period of 2015/2018.

The Alternate member of the Supervisory Board, Mr. Rui Pedro Ferreira de Almeida, was elected to the position at the General Meeting of 30 May 2015, also for the term of office 2015/2018.

Furthermore, it should be noted that they all possess suitable competence for the performance of their duties, as described below in 33.

**32. Identification, as applicable, of the members of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee who are considered independent, under the terms of article 414, number 5 of the Commercial Companies Code. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 19.**

All the current members of the Supervisory Board fully comply with all the requirements of independence, and there is no incompatibility for the performance of their duties for any of them, under the terms established in the Commercial Companies Code.

The facts referred to in the previous paragraph are investigated periodically in relation to each member of the Supervisory Board.

**33. Professional qualifications, as applicable, of each member of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee and other relevant curricular elements. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 21.**

## **b) Operating**

**34. Existence and location where the operating regulations may be consulted, as applicable, of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 24.**

As described above in number 22 of the present Report, there are no operating regulations for the governing bodies.

Notwithstanding the above, we disclose that the "Code of Ethics and Conduct of Teixeira Duarte" was approved by deliberation of the Board of Directors of TD,SA on 24 April 2014, being applicable to all the entities integrated in its consolidation perimeter and management scope and to all their employees, including the members of the governing bodies.

This document establishes, in a new version, the transversal principles of action for all Teixeira Duarte Group employees and in this way, the Company's dealings with the related parties. While this Code acts to strengthen and develop Teixeira Duarte's Mission and Values, it contains absolutely no regulatory provisions on the operating of the governing bodies or other pertinent regulations in this context.

**35. Number of meetings held and level of attendance of the meetings which have been held, as applicable, of each of the members of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 25.**

During 2015, the Supervisory Board held six meetings, all of which were attended by all of its permanent members.

**36. Availability of each member, as applicable, of the Supervisory Board, Audit Committee, General and Supervisory Board or Financial Matters Committee, indicating positions held simultaneously at other companies, within and outside the group, and other relevant activities performed by the members of these bodies during the financial year. Reference may be made to the point of the report where this information is already presented pursuant to the provisions in number 26.**

All the members of the Supervisory Board show the appropriate availability for the performance of their duties at TD,SA, namely for participation in the periodic meetings of the Board of Directors and Supervisory Board, and for follow-up of the Company's activity and the preparation and publication of the documents presenting the accounts, in coordination with the action of the Chartered Accountants Firm.

### **c) Competencies and duties**

#### **37. Description of the procedures and criteria applicable to the intervention of the supervisory board for purposes of contracting additional services from the external auditor.**

No services are contracted from the external auditor other than those related to the legal review of accounts and auditing, hence the present regulation is not applicable to TD,SA.

#### **38. Other duties of the supervisory bodies and, if applicable, the Financial Matters Committee.**

The supervisory bodies do not perform any duties other than those described above and legally defined.

## **IV. CHARTERED ACCOUNTANT**

#### **39. Identification of the chartered accountant and chartered accountant partner representing the former.**

The position of chartered accountant is held by "Moore Stephens & Associados – SROC", represented by Mr. António Gonçalves Monteiro.

**40. Indication of the number of years during which the chartered accountant has performed duties consecutively at the company and/or group.**

The chartered accountant was appointed for the first time to the position at the General Meeting of 30 May 2015, to perform the respective duties during the four-year period 2015/2018.

**41. Description of other services provided by the chartered accountant to the company.**

The chartered accountant does not provide any services other than those related to the legal review of accounts and audit of TD,SA.

**V. EXTERNAL AUDITOR**

**42. Identification of the external auditor appointed pursuant to article 8 and chartered accountant partner who represents the external auditor in compliance with these duties, as well as the partner's registration number at the CMVM.**

The appointed external auditor, under the terms of article 8 of the Securities Market Code, is the chartered accountants firm "Moore Stephens & Associados - SROC", represented by Mr. António Gonçalo Monteiro, registered at the CMVM under number 173.

**43. Indication of the number of years during which the external auditor and respective chartered accountant partner who represents it in compliance with these duties, has performed duties consecutively at the company and/or group.**

The external auditor and respective chartered accountant partner who represents it in performing these duties, has held this position at TD,SA since his election at the General Meeting of 30 May 2015, in other words, for approximately 1 year.

**44. Policy and frequency of rotation of the external auditor and respective chartered accountant partner who represents it in compliance with these duties.**

There is no defined policy on the rotation of the external auditor and respective chartered accountant partner who represents it in compliance with these duties.

However, it should be further noted that the issue established in Recommendation number IV.3, companies should promote the rotation of the auditor at the end of two or three terms of office, according to whether they are four or three years respectively, is not relevant in this case since the auditor is performing its first term of office in this position.

**45. Indication of the body responsible for the assessment of the external auditor and frequency with which this assessment is conducted.**

The action of the external auditor has been assessed by all the Supervisory Board and all other governing bodies of TD,SA on an annual basis, and there have never been any circumstances that could justify his dismissal or the termination of the contract for the provision of his services on fair grounds.

On this issue, it should be noted that the Board of Directors of TD,SA and the services under this board have undertaken the commitment to assure the existence of appropriate conditions for the provision of services by the external auditor within the Company, since the Board of Directors and the services under this board are placed directly within the operating structure of TD,SA, and have the necessary physical means, information and documentation to provide the external auditor with the appropriate conditions for the performance of its duties.

The Company's principal interlocutor and first receiver of the external auditor's reports is not the Supervisory Board, as indicated in Recommendation number II.2.2, but rather the Board of Directors, since this is the most suitable interlocutor of the Company, as was described above. Furthermore, this is also the body which is placed directly within the company's operating structure, facilitating the communication and disclosure of information between the different bodies and entities, where under no circumstances has the independence of the auditor ever been hindered.

However, it should be noted that these procedures are adjusted and coordinated with the Supervisory Board which, notwithstanding this, also receives, from the external auditor and its team, all the information and details deemed necessary to perform its duties.

The remuneration of the external auditor is established by the Company's Remuneration Committee, under the terms stipulated in the Article of Association, as is the case for all the other governing bodies, and up to this date, no grounds have been found to suggest the interference of the Supervisory Board in this matter.

This model, implemented some years ago under the Teixeira Duarte Group, has proved to be appropriate to the good operation of the governing bodies and guaranteed transparency.

**46. Identification of work, other than audit, carried out by the external auditor for the company and/or for the companies which are in a controlling relationship with it, as well as indication of the internal procedures for the purpose of approval of contracting such services and indication of the reasons for their contracting.**

It is disclosed that neither the external auditor, nor any other entities in a holding relationship or which are part of the same network, provide TD,SA with any services other than audit services.

**47. Indication of the value of the annual remuneration paid by the company and/or legal persons in a controlling or group relationship with the auditor and other natural or legal persons belonging to the same network, and details of the percentage relative to the following services (for the effect of this information, the concept of network is as defined in European Commission Recommendation number C (2002) 1873, of 16 May):**

The retribution paid by the company and/or legal persons in a controlling or group relationship with the auditor and other natural or legal persons belonging to the same network determined in accordance with the volume and quality of the services provided in the context of the duties entrusted under the terms of the Law and Articles of Association.

## **C. INTERNAL ORGANISATION**

### **I. ARTICLES OF ASSOCIATION**

#### **48. Rules applicable to the amendment of the articles of association (article 245-A, number 1, subparagraph h)).**

There are no specific rules for any amendments of the Articles of Association, with the general rules established in the Commercial Companies Code being applicable, in particular the provisions in articles 85, 383, number 2 and 386.

### **II. COMMUNICATION OF IRREGULARITIES**

#### **49. Means and policy of communication of irregularities occurred in the company.**

Regarding the policy of communication of irregularities which have allegedly occurred, the Company encourages its employees to provide information, through the means they deem convenient - direct contact, written document, e-mail or telephone - to the respective hierarchies of any detected irregularities. The persons with legitimacy to receive these communications are the respective hierarchical senior staff.

Whenever deemed appropriate to the correct establishment of the facts and responsibilities inherent to their practice, the corresponding proceedings or enquiries are initiated, also safeguarding the necessary confidentiality of the communication when requested by the declarant or deemed convenient by the receiver.

The proceedings are monitored by the person responsible for the department where the alleged irregularity has occurred, using people who are not involved in the situation in question and, if deemed appropriate, followed by lawyers and the Central Department for Human Resources.

The proceedings are subject to the decision of the hierarchies involved, which shall be reported to the Board of Directors and any other entities to which it is mandatory that this communication must be made.

In addition to the aforesaid rules and especially from the point of view of the other stakeholders, an Investor Support Office is also available for the reporting of any possible irregularities, and likewise the Company's supervisory bodies, that is, the Supervisory Board and the Chartered Accountants Firm.

Apart from this, a new vehicle for the communication of irregularities directly to the Supervisory Board has been operational since 2014, via the creation of the email address [irregularidades@teixeiraduarte.pt](mailto:irregularidades@teixeiraduarte.pt), to which the employees (especially using the corporate portal) and shareholders (the same is provided for this purpose on TD,SA's official website [www.teixeiraduarte.pt](http://www.teixeiraduarte.pt)) may send reports on any irregularities.

The aforesaid "Code of Ethics and Conduct of Teixeira Duarte", specifically for the monitoring of its application, states that "*the employees, customers, suppliers and all other related parties are responsible for striving to ensure compliance with this Code of Ethics, disclosing it, invoking it in their defence and demanding its application throughout the hierarchical structure, including the senior staff, as well as communicating any detected irregularities directly to the Board of Directors, which shall also be available to provide clarifications on its application.*"

### **III. INTERNAL CONTROL AND RISK MANAGEMENT**

#### **50. People, bodies, committees or commissions responsible for internal audit and/or for the implementation of internal control systems.**

The Internal Audit Services of the Teixeira Duarte Group have progressively played a fundamental role regarding the implementation of internal control systems.

As at 31 December 2015, these services were assured by 6 employees, under the hierarchical and operational dependence of the Director Manuel Maria Calainho de Azevedo Teixeira Duarte, where the coordination of this work was also articulated in meetings with the participation of the members of the Supervisory Bodies.

On this issue, particular note should be made of the relevant contribution provided by the corporate services of Consolidation of Accounts and Corporate secretarial services in the process of reporting and disclosure of financial information.

#### **51. Explanation, even if by inclusion of an organisational chart, of the relations of hierarchical and operational dependence in relation to other bodies, committees or commissions of the company.**

As noted above, as at 31 December 2015, the audit services were under the hierarchical and operational dependence of the Director Manuel Maria Calainho de Azevedo Teixeira Duarte, who was not considered independent under the applicable rules and regulations.

Nevertheless, it is considered that this Director is not under any circumstances capable of affecting his impartiality in analysis and decision-making.

It should be added that, since its creation within the internal organisation of the Teixeira Duarte Group, the Internal Audit Department has not only always been under the hierarchical dependence of the Board of Directors, but has always reported functionally to the Director responsible for the financial area. This model has proved to be appropriate, since this not only facilitates the communication, collaboration and exchange of information between the said Departments within the company's organisational structure, and the Director responsible for the area, but also, it should be stressed, has ensured that none of their impartiality has ever been placed in question.

It is, therefore, in this context that we disclose that it is the Board of Directors - and not the Supervisory Board, as stated in Recommendation number II.2.5 - which issues opinions on all the work plans and resources allocated to the Internal Audit Service and receives all the reports produced by this service, even when unrelated to matters concerning the presentation of accounts, the identification or settlement of conflicts of interests and the detection of potential illegalities.

Regarding the Company's internal control and risk management systems, the Board of Directors is responsible, in the first place, for knowing and assessing the most important risks faced by the Company, as well as for the promotion of the necessary initiatives for their respective prevention.

In this context, the Board of Directors is responsible for designing and planning the internal control and risk management systems which prove necessary and appropriate for the different situations which are identified, as well as monitoring their respective implementation, supervising and assessing their operation.

Furthermore, the Board of Directors is also responsible - rather than the supervisory bodies as mentioned in Recommendation number II.2.4 - for the assessment of the operation of these systems and for proposing their respective adjustment to the needs of TD,SA, since this matter is, due both to its nature and the particularities described above, falls under the specific scope of action of the Board of Directors and under this body's control and supervision of the different Departments of the Group's companies, a system that has proved suitable for its respective purposes.

This reality is, however, followed closely by the members of the supervisory bodies which, in addition to the regular monitoring of the Group's activity, are represented at the monthly meetings held by the Board of Directors where a vast series of elements are provided of different nature with reporting information and forecasts on the Group's action in its different markets and sectors.

## **52. Existence of other operational areas with competence in risk control.**

There are no other areas with exclusive competence concerning risk control, since, in view of the model enforced within the Group on this matter, all the areas have their respective share of responsibility under the terms described above.

## **53. Identification and description of the main types of risk (economic, financial and legal) to which the company is exposed during the exercise of its activity**

The main economic, financial and legal risks to which the company is exposed during the exercise of its activity are as follows:

- alterations in the economic and business conditions in Portugal, as well as in the economic and business conditions of the Group's operations abroad, namely in Angola, Algeria, Brazil, Mozambique and Venezuela;
- fluctuations and volatility of interest rates, credit spreads and exchange rates, as well as ready cash of convertible currencies in markets in which the Group operates;
- alterations in government policies;
- regulatory and financial framework of banking activity;
- alterations in the competitive environment of the activity sectors in which the Teixeira Duarte Group operates; and
- fluctuations in stock markets in general and in particular the stock market price of BCP shares.

Furthermore, the activity of the Teixeira Duarte Group is dependent on the economic environment and on the consequences which certain macroeconomic situations might have on the levels of confidence of the different economic agents, on investment volumes, exports and global trade, as well as on employment levels and consumption patterns.

The evolution of the activity areas in which the Group operates, namely the construction area, is historically correlated, more or less directly, with the macroeconomic performance of the countries or markets in which the Teixeira Duarte Group operates, in particular, with the evolution of Gross Domestic Product (GDP) and corresponding market prices. Therefore, the Group's activity and its results may be significantly affected by the performance of the economies where the Teixeira Duarte Group operates, mainly through the effect of the growth or retraction of the construction market, the most representative business area in the Group's operating income (45.7% in 2015).

Considering that construction activity is the core business of the Teixeira Duarte Group, in particular in the areas of Geotechnics and Rehabilitation, Buildings, Infrastructures, Mechanical Engineering, Underground, Railway and Maritime Works, the main risks inherent to this business are described below:

Large-scale **construction** business involves a major allocation of human and material resources, which implies a high fixed cost structure not only due to the necessary need to invest in the teams and their training, but also the significant investment required in the acquisition, maintenance and adaptation of equipment.

The costs associated to many of the tenders, both in the preparation of proposals and in the insurance, guarantees and completion bonds which are sometimes necessary to provide, also constitute another risk factor inherent to the activity, especially taking into account the penalties very often related to the large public contract works in which the Teixeira Duarte Group participates.

Moreover, the retraction of public investment, as well as private investment to a lesser extent, has affected revenue, which is also sometimes penalised by the deadlines and delays in payments.

On the other hand, the nature of the service provided often implies alterations of the circumstances that were initially negotiated, as a result of the vicissitudes of the contract work in question (climate change; discovery of adverse and unexpected characteristics; natural, social and economic phenomena arising from the impact of the work) and alterations of projects, very often due to new choices by the owner of the work which calls for great flexibility in the efficiency of their execution.

Yet another important aspect arises from the significant number of suppliers of goods and equipment and service providers with which the Company deals in this area of action and which might imply risks due to actions or omissions imputable to them, including interruptions or delays in the service or supply of goods.

From a commercial point of view, globalisation has enabled the entry of other major construction groups into the main and oldest markets of action of Teixeira Duarte - especially Portugal and Angola - forcing greater effort in the presentation of solutions and proposals, as well as the optimisation of costs to enable meeting the competitive strength of these entities.

**Concessions** are normally long term projects which involve increasingly more areas, such as those linked to planning, design, construction, financing and operation and, which, both due to their complexity and need for partners and the longevity of the processes, imply heavy risk in the evaluation of assets and projects in the long term, in an increasingly more dynamic world characterised by unexpected changes.

The Group's **Real Estate** activity is affected by the requirements for new projects, increasing at all levels (administrative, economic, social, environmental, among others), and by variations of demand derived from updates of interest rates and ready cash for funding purposes.

**Hotel Services** in Portugal have experienced minor fluctuations, while the hotels in Africa are naturally exposed to the characteristics of the respective countries and the increasing competition at an unprecedented scale. Moreover, and in view of the levels of indebtedness of some of the subsidiary companies operating in this sector, the net income and, consequently, the net worth of these companies may suffer adverse impacts as a result of unfavourable evolutions in interest rates.

**Distribution** in Angola is very exposed due to the specific circumstances of the country and logistic difficulties related to supply, transport and travel.

The **Automotive** sector is currently subject to heavy competition, in particular in the Angolan market, where competitiveness is increasing considerably and the investment made by the Group implies strong optimisation of processes and costs, in a market which is becoming progressively more demanding.

In the **Energy** sector it should be noted that, in 2015, the Group divested its stake in the company "PETRIN – Petróleos e Investimentos, S.A.", through which it had exercised its action in the liquid fuel area. As a result, the risks to which its activity is currently more exposed in this sector are limited to the volatility of the price of gas in the international markets.

Regarding the **financial holdings**, in particular the stake held in "Banco Comercial Português, S.A.", the risk arises from the current volatility of the financial markets and the possible impact of the respective stock market prices on the accounts of the Teixeira Duarte Group, which might even, under certain circumstances, affect net income.

The risks described above, should they occur, could have a negative impact on the net income of the Teixeira Duarte Group and its financial situation.

TD,SA is exposed to strategy risks, through the possibility of taking inadequate strategic decisions, failures in the implementation of decisions or lack of response capacity regarding changing market conditions.

The international business of the Teixeira Duarte Group represents a significant portion of the Group's total turnover (82.9% in 2015). It is impossible to guarantee the full success of operations on the foreign markets in which the Group operates. Moreover, these operations are exposed to foreign exchange risks arising from possible adverse economic developments in the countries where they are established. These factors could adversely affect the activity, financial situation and net income of the Teixeira Duarte Group.

The Teixeira Duarte Group operates in various activity sectors, in particular, due to its contribution to the Group's operating income, the Construction sector, but also in others such as Distribution, Energy and Automotive, which can be described as very competitive sectors. This competition environment, when associated to negative cycles in the activity areas in which the Group operates, may have a negative impact on the Company's marketing margins and on its net income and, consequently, on its financial situation.

The capacity of the Teixeira Duarte Group to successfully implement its strategy depends on its ability to recruit and retain qualified and competent employees for each position. Although the human resources policy of the Teixeira Duarte Group is directed towards the achievement of these objectives, it is impossible to guarantee that, in the future, there will be no limitations in this area. Such circumstances could obstruct or delay the execution of the defined strategy, which could have a negative effect on the Group's activity, financial situation, and net income.

The deterioration of global economic conditions or adversities that affect the economies at a local scale could result in the inability of the Group's customers to meet their obligations or significantly delay their payment, leading to the existing credit lines entering into a situation of default. This scenario would result in losses affecting the activity, financial situation and net income of the Teixeira Duarte Group.

The Teixeira Duarte Group might, in the future, be part of a number of disputes related to its activity, including those where the sentence has

been favourable, totally or partially, and which might be subject to appeal or action for annulment by the counterparts under the terms of the applicable procedural rules and until the reading of the final judgement on these same sentences. The Teixeira Duarte Group cannot guarantee that it will win any lawsuits relative to its activities and a negative decision in this area might have an adverse effect of significance to the activity, financial situation and net income of the Teixeira Duarte Group.

The activities of TD,SA require investments. The Group finances part of these investments through the cash flow generated by its operating activities. However, TD,SA and its subsidiaries finance most of their investments through external sources, including bank loans and offers in capital markets.

The Teixeira Duarte Group is exposed to a series of risks, such as liquidity risks, interest rate risks and exchange rate risks, amongst others, and in the event of exceptionally adverse scenarios, the policies and procedures used by TD,SA to identify, monitor and manage risks might not prove to be totally effective.

As is the case of any other economic group integrated in a competitive environment, the Teixeira Duarte Group is also subject to risks related to liquidity. The Group believes that it is suitably equipped with the necessary means to exercise effective control of the risks of its activity, that the action developed by the management is effective, based on information provided by the Consolidation of Accounts and Internal Audit Services and by the Central Department for Finance and Accounting which, under the direct supervision of a Director responsible for this area and monitoring of the supervisory bodies, is specially committed to controlling the liquidity of the Teixeira Duarte Group.

TD,SA manages the Group's liquidity risk in two ways: ensuring that the Group's financial debt has a high component of medium and long term maturities suitable to the expected capacity to generate funds and re-finance these lines, and assuring the availability of credit facilities, in various cases provided in the form of current account credit lines.

During its normal business, the Group is subject to certain operating risks, including interruption or delays in the provision of services, frauds, omissions, errors and delays in the implementation of requirements for risk management. These risks are monitored by the Group in an ongoing manner through administrative and information systems, amongst others, with some of the operating risks being covered by insurance policies.

The operations developed by the Teixeira Duarte Group are dependent on computer processing. The computer processing involves the maintenance of records, financial reporting and other systems, including systems for the monitoring and control of the different operations of the Group, in particular in human resources management, accounts, logistics, administration and storage. Notwithstanding the assessment which has been made of the computer systems and the belief that their capacities are appropriate, it is impossible to guarantee potential investors that all the problems related to the information technology systems will be fully identified and corrected in due time, nor systematic success in the implementation of technological improvements.

The cost of the vast majority of the financial debt incurred by the Teixeira Duarte Group is indexed to variable reference rates, whereby TD,SA is, through this means, exposed to interest rate risk.

However, in order to manage these variations, the financial area of the Teixeira Duarte Group permanently follows market development, and is able to use financial instruments to mitigate the effects of interest rate volatility. These instruments are contracted by considering the risks affecting the assets and liabilities and after checking which instruments available on the market are the most appropriate to cover these risks. These operations are permanently monitored, particularly through the analysis of various indicators regarding these instruments, in particular the evolution of their market value and sensitivity of forecast cash flows and of the actual market value to changes in key variables that condition the structures, for the purpose of evaluating their financial effects. Derivative financial instruments are recorded in accordance with the provisions of IAS 39 and measured at fair value, which is based on assessments made by financial institutions. These are qualified as hedge instruments or instruments held for trading, in compliance with the provisions of IAS 39.

The variation of the exchange rate of the Euro relative to other currencies, in particular the US Dollar, Angolan Kwanza, Algerian Dinar, Brazilian Real, Mozambican Metical and Venezuelan Bolivar might have an impact on the financial situation of TD,SA. The Teixeira Duarte Group operates in various markets, records revenue in foreign currency and has monetary assets and liabilities denominated in currencies other than the Euro and, therefore, in this way, is exposed to variations in the respective currencies.

In indirect terms, note should also be made of the fact that the Teixeira Duarte Group acquires a variety of materials, of special importance in the construction, distribution and automotive areas in currencies other than those in which the final products are subsequently sold, namely in Angola, which could partially influence the net income achieved by the Group in the activity developed in these sectors.

Particular note should be made of the import and export of materials for construction and products which are essentially consumables to the companies established under Angolan law which operate in the area of distribution, as well as automobile vehicles, spare parts and equipment for the different local participated companies in the automotive sector in Angola, involving, amongst others, the trade names Chevrolet, Honda, JMC, Mahindra, Nissan, Peugeot, Renault and SsangYong.

Adverse variations in the price of oil and other commodities might also significantly affect the net income and financial situation of the Teixeira Duarte Group.

The volatility of the price of commodities constitutes a risk for the Teixeira Duarte Group, affecting the operating activity of the construction business area, although this is on occasions mitigated through supplier contracts with fixed prices and customer contracts which enable reflecting these alterations in the prices paid by these customers.

In particular, the Teixeira Duarte Group is indirectly exposed to the price of oil. The Group's capacity to reflect increases in the price of oil in the prices of its final products and services is minor, therefore, negative consequences might arise in the direct margins of the final products sold and in the net contribution of the services rendered. Furthermore, an increase in the price of oil has a direct impact on the transport costs associated to the development of the Group's activity, therefore, adverse variations in the price of oil could have a negative material impact on the Group's activity, financial situation and net income.

More specifically, the evolution in the price of oil could significantly affect the net income of the Teixeira Duarte Group for three reasons:

- directly, through the margin generated in Energy, a business area which represented 1.2% of the operating income of the Teixeira Duarte Group in 2015;
- the cost of transport is one of the most important cost items in the Group's operating accounts;
- energy costs are of some significance in the price of external supplies and services;
- the evolution of the price of oil strongly influences the development of the actual economy of the markets in which the Teixeira Duarte Group operates, some of which in a very significant manner, due to the importance that this product represents in the GDP of these countries.

Any increase in taxes or reduction in tax benefits could have an adverse effect on the activity of the Teixeira Duarte Group.

The Teixeira Duarte Group could be affected by changes in the legislation and other tax regulations applicable in Portugal, in the European Union and in the different countries in which the Group operates.

The financial statements of the Teixeira Duarte Group might be influenced by the change in value of the financial stakes held.

The net worth, equity and even, in certain situations the impairment, net income of the Teixeira Duarte Group might be influenced by the appreciation/devaluation of the financial stakes owned, which, in the case of the holdings in companies listed for trading on regulated markets, depends directly on the stock market prices of the respective shares.

The entities of the Teixeira Duarte Group are subject to the risks inherent to any economic activity, which is the case of accidents, breakdowns or natural catastrophes that might lead to losses in the Group's assets or temporary interruptions in the respective activity. Likewise, these risks might affect the main customers and suppliers of the Teixeira Duarte Group, which would have a significant impact on profitability where it is not possible to find replacement customers in order to guarantee the turnover level or suppliers to enable maintaining the same cost structure.

#### **54. Description of the process of identification, assessment, monitoring, control and management of risks.**

The procedures implemented in terms of internal control and management of risks are characterised by promoting the autonomy of the Company's senior staff in the management and monitoring of matters, instilling an attitude of responsibility and strong stimulus to entrepreneurial behaviour.

This consistent relationship between autonomy and responsibility imposes, in a realistic manner, careful and strict compliance with the tasks allocated to each employee, thus representing, in itself, a solid, sustained and effective risk control system that delivers practical results considered satisfactory.

The importance of weighing the cost of control in relation to the matters that are to be controlled is always taken into account. The assessment of the Company, of the way it is managed, of the composition of its staff and managers of the companies included in the Teixeira Duarte Group, and of the fundamental principles and concepts that are applied, leads to the conclusion that the efficiency and control costs related to the creation of any control committees would greatly outweigh the potential benefits that could arise from control carried out by such committees. Moreover, the mere creation of committees for the effect, from a formal point of view, would eventually imply more bureaucratic obstacles that would not be reflected in their practical implementation.

Although the internal control and risk management system implemented in the Company does not fully comply with the requirements listed in Recommendation II.1.5, TD,SA remains firmly convinced of its choice for the model described above, because it believes that the basic assumptions of this recommendation are inappropriate for the regular operation of the Company, and may even create various obstacles from the merely formal and bureaucratic point of view that are incompatible with the execution of the procedures which have already been implemented and with the accountability of the Group's organisational structures.

#### **55. Main elements of the internal control and risk management systems implemented in the company relative to the process of disclosure of financial information (article 245-A, number 1, subparagraph m)).**

The process of disclosure of financial information is coordinated by the Board of Directors and always monitored by the Supervisory Bodies. The teams of the Consolidation of Accounts and Corporate Secretarial Services contribute to this process, respectively, in the preparation and recording of the accounts and other accounting and financial reporting and in the preparation and disclosure of the final document.

Both the aforesaid services closely follow the evolution of the applicable rules and regulations, both in the financial and legal areas, and interact with the Securities Market Commission to ensure updated supplementary information and regulations on these matters and report directly to the Board of Directors.

All the employees of the Consolidation of Accounts Services and those who, in the Corporate Secretarial Services, participate in the preparation and disclosure of the final document are included in the list established in article 248 of the Securities Market Code, as employees with access to privileged information, with all being notified by letter delivered by hand of their inclusion in this list and the legal consequences arising from the disclosure or abusive use of privileged information.

#### **IV. INVESTOR SUPPORT**

##### **56. Service responsible for investor support, composition, duties, information provided by these services and contact details.**

## **D. REMUNERATIONS**

### **I. COMPETENCE FOR DETERMINATION**

**66. Indication of competence to determine the remuneration of the governing bodies, members of the executive committee or chief executive officer and senior managers of the company.**

Pursuant to article 11 of the Articles of Association of TD,SA and under the terms established in the Policy of Remuneration of the Management and Supervisory Bodies of the Company, the Remuneration Commission is competent to determine the remuneration of the governing bodies.

It should also be noted, as has already been clarified, there is no executive committee or Chief Executive Officer, hence, in this regard, this issue is not applicable to TD,SA.

However, and based on the criteria established in article 248-B, number 3 of the Securities Market Code, the only senior managers of TD,SA who are not part of their Board of Directors are members of the Board of Directors of its subsidiary company "Teixeira Duarte - Engenharia

e Construções, S.A.", where the determination of these senior managers is entrusted to the Remuneration Committee of "Teixeira Duarte - Engenharia e Construções, S.A.", which is composed of precisely the same members as those of the Remuneration Committee of TD,SA.

## II. REMUNERATION COMMITTEE

### **67. Composition of the remuneration committee, including identification of natural or legal persons contracted to provide support and statement of the independence of each member and adviser.**

Currently, the Remuneration Committee is composed of the following persons, elected at the General Meeting of 30 May 2015, to perform duties during the term of office of 2015/2018:

- Pedro Maria Calainho Teixeira Duarte
- António Carlos Calainho de Azevedo Teixeira Duarte
- Maria da Conceição Maia Teixeira Duarte

Mr. Pedro Maria Calainho Teixeira Duarte is not considered independent in relation to the members of the Board of Directors, since he is also the Chairman of this management body.

Since TD,SA is controlled by companies held by members of the Teixeira Duarte family, it is natural that they are part of its Remuneration Committee. Traditionally and for decades, this practice has been followed, always in conformity with the rules and recommendations on the remuneration of the members of the Management Board established by the CMVM at any given time, hence there are no reasons to change this.

It is important to stress that this is a Company which, following the example of the Group's former holding company ("Teixeira Duarte - Engenharia e Construções, S.A."), with its own specific way of acting and its strongly distinctive business image, has adopted a very particular way of being and a healthy management policy which has been recognised as such by the public and market.

Furthermore, no natural or legal persons have been contracted to support the Remuneration Committee in the performance of its duties.

Moreover, we disclose that the external auditor, under its competence, is responsible for verifying the application of the policies and systems of remuneration of the governing bodies, as established in Recommendation number IV.1.

### **68. Knowledge and experience of the members of the remuneration committee on matters of remuneration policy.**

Mr. Pedro Maria Calainho Teixeira Duarte and Mr. António Carlos Calainho de Azevedo Teixeira Duarte have knowledge and experience on matters of remuneration policy, taking into account that they performed these duties for several years in other companies.

### III. STRUCTURE OF THE REMUNERATIONS

#### **69. Description of the policy of remuneration of the management and supervisory bodies referred to in article 2 of Law number 28/2009, of 19 June.**

The Remuneration Committee of TD,SA issued the respective remuneration policy statement relative to the members of the Management and Supervisory Bodies, which was approved unanimously at the General Meeting of this company, held on 30 May 2015, where the contents of this statement are reproduced below:

##### *"REGULATORY FRAMEWORK*

*Pursuant to the provisions in Law number 28/2009, of 19 June, and article eleven of the Company's Articles of Association, this Committee is responsible for the annual submission, for the approval of the General Meeting, of a statement on remuneration policy of the members of the management and supervisory bodies of this Company, which should take into consideration, in addition to this diploma, article 399 of the Commercial Companies Code and the CMVM Corporate Governance Code of 2013 (Recommendations).*

##### *I. SCOPE OF THE STATEMENT:*

*Pursuant to the adopted corporate model adopted by "Teixeira Duarte, S.A.," the present statement covers all the members of the Board of Directors, Supervisory Board and Chartered Accountants Firm.*

##### *II. INTRODUCTION:*

*Since, under a corporate restructuring process of the Teixeira Duarte Group, in 2010, "Teixeira Duarte, S.A." succeeded "Teixeira Duarte - Engenharia e Construções, S.A." as the leading company of the Group, the definition of this Remuneration Policy takes into account the historical reality and context of the subject experienced regarding this latter company over the years.*

##### *III. BOARD OF DIRECTORS:*

*Regarding the Board of Directors, the Remuneration Committee should determine the values of the fixed and variable component of its remunerations in accordance with guidelines that link them to the performance and results of the Company as a whole, as well as the overall activity of the management board, relative to the defined objectives, taking into account the conditions and amounts of the remunerations of the other employees of "Teixeira Duarte, S.A." and the company 100% held by it, "Teixeira Duarte - Engenharia e Construções, S.A."*

*The remuneration policy and its implementation under the terms described herein should take into account the company's long term performance, compliance with the rules applicable to the company's activity, restraint in excessive risk-taking and market knowledge.*

*The variable amount should be established for each member of the Board of Directors as supplementary remuneration and performance bonus, where this component is totally unrelated to the evolution of the stock market price of the Company's shares, but rather depends on the evolution of corporate business, financial indicators such as net indebtedness and financial autonomy, dedication by each member to the achievement of the tasks and objectives inherent to their respective duties, as well as the net income for the year and corresponding policy on its appropriation, which has progressively favoured the reinforcement of the Company's equity and ensuring the continued and balanced distribution of dividends to shareholders.*

*No Director is entitled to any right to the variable component of his remuneration until its specific attribution by this Remuneration Committee. Likewise, there is no provision stipulating the possibility of the payment of the variable component taking place, totally or partially, after the calculation of the accounts for the years corresponding to the entire term of office. Furthermore, there are no mechanisms limiting the variable remuneration, in the event of the net income showing a considerable deterioration in the company's performance in the last reported year or when such is expected for the year in progress.*

*However, the Committee should consider whether a significant part of the variable remuneration should be deferred for a period not less than three years, and if its payment should be subject to the continued positive performance of the company over this period, where this is defined as the occurrence of at least one of the following facts:*

- Increased equity;*
- Average EBITDA for 2015 to 2017 above the EBITDA recorded for 2014;*
- Average Consolidated Net Income for 2015 to 2017 above the Consolidated net income for 2014.*

*There will be no system for the attribution of shares or rights to acquire options on shares and/or any other share incentive scheme.*

*For the overall remuneration of the members of the Board of Directors, no sum will be paid in the form of profit-sharing.*

*The Directors of "Teixeira Duarte, S.A." should not receive any remuneration, of any nature, paid by companies that are in a controlling or group relationship with it.*

*There should not be any other relevant non-cash benefits, apart from those established by this Committee.*

*The members of the Board of Directors shall be paid daily allowances under the terms and of the amounts determined for all the other employees of "Teixeira Duarte, S.A." and "Teixeira Duarte - Engenharia e Construções, S.A.," namely for deployment under work for the Company.*

*No sums have been paid, and nor are there any foreseen sums payable, relative to the dismissal or termination of office of Directors.*

#### **IV. SUPERVISORY BOARD:**

*All the members of the Supervisory Board should, pursuant to the current system established in the Commercial Companies Code, receive a fixed remuneration for the performance of the duties inherent to their respective positions, determined by this Remuneration Committee, where none of these members should receive any other retribution from "Teixeira Duarte, S.A." or other company with which it was in a controlling or group relationship, in particular for any other services provided to these entities.*

*Likewise, and as referred to above on the Management Board, there should not be any scheme for the attribution of shares and/or rights to acquire options on shares and/or any other share incentive scheme, nor any sum paid under the form of profit-sharing, nor any other relevant non-cash benefits.*

#### **V. CHARTERED ACCOUNTANT:**

*The remuneration of the Chartered Accountants Firm should be determined in accordance with the volume and quality of the services provided in the context of the duties entrusted under the terms of the Law and Articles of Association.*

*In the case of "Teixeira Duarte, S.A.," this supervisory body is responsible for conducting all the examinations and verification required for the review and legal certification of the Company's accounts, for which an amount should be established in the form of an annual overall value to be paid under the terms and within the periods of time defined with the Board of Directors, according to its sensitivity and monitoring of the business and activity of this Supervisory Body.*

*It should be noted in particular that this same Chartered Accountants Firm also provides legal review of accounts and auditing services, exclusively of the same nature, to other entities included in the Teixeira Duarte Group, receiving the corresponding retributions from these companies, whose overall value shall be disclosed under the terms of the Law, especially through the publication of the Corporate Governance Report.*

*Since the Supervisory Board has played an increasingly more active role in monitoring the work of the Chartered Accountants Firm, this board should be consulted in order to issue an opinion on the establishment of the remunerations of this firm.*

#### *VI. CONCLUSION:*

*Therefore, it shall be based on the remuneration policy presented above that this Committee should, specifically, establish the exact values of the remunerations of the members of the indicated management and supervisory bodies of the company, in accordance with the personal opinion of their members, expressed in a deliberation drawn up in minutes and whose content is then communicated to the Board of Directors for implementation, under the strict terms defined therein.*

*These amounts shall be disclosed annually whenever so required by the law, especially in the Corporate Governance Reports.*

*To conclude, it is emphasised that many of the aspects established above seek to comply with the regulations mentioned at the beginning, and may be altered in accordance with any changes that these rules might undergo."*

TD,SA believes that the statement on the remuneration policy applicable to the members of the Management and Supervisory Bodies transcribed above is fairly clear and encompassing, enabling a correct understanding of the way that the remunerations of the management and supervisory bodies are established.

Indeed, the aforesaid statement contains the generality of the information mentioned in Recommendation number II.3.3, where only the information relative to the potential maximum amounts referred to in subparagraph b) of this recommendation are not indicated, as these maximum amounts have never been established.

### **70. Information on the way the remuneration is structured so as to permit the alignment of the interests of the members of the management board with the long-term interests of the company, as well as on the manner in which it is based on the assessment of performance and discourages excessive risk taking**

In addition to the obligations inherent to the performance of the actual duties, the remuneration of the Directors also, complementarily, acts to meet the alignment of their interests with those of the Company. Indeed, the remuneration is determined by this Committee elected at the General Meeting, which establishes these values in accordance with guidelines related to the performance and results of the Company as a whole, as well as the overall activity of the management board, relative to the defined objectives, taking into account the conditions and amounts of the remunerations of its employees and all other employees of the company 100% held by it, "Teixeira Duarte - Engenharia e Construções, S.A."

The establishment of remunerations also takes into account the company's long term performance, compliance with the rules applicable to the company's activity, restraint in excessive risk-taking and market knowledge.

### **71. Reference, if applicable, to the existence of a variable component of the remuneration and information on any impact of the assessment of performance on this component.**

The remuneration of the Directors includes a variable component, which is unrelated to the evolution of the stock market prices of the Company's shares, but rather depends on the evolution of corporate business, financial indicators such as net debt and financial autonomy, the dedication shown by each member in the accomplishment of the tasks and objectives inherent to their duties, as well as the net income for the year and the corresponding policy of its appropriation, which has also always prioritised the reinforcement of the Company's equity and assurance of the continued and balanced distribution of dividends to shareholders.

Accordingly, there is no maximum ceiling for each component as suggest in Recommendation number III.3, but rather an attribution in conformity with the parameters identified above, the remuneration policy defined for the Company, and the assessment of the performance and execution of duties of each Director. The variable component has always been reasonable as a whole in relation to the fixed component, in conformity with the indications of Recommendation number III.3.

Although part of the variable component attributed by the Remuneration Committee may be deferred over time, it is important to note that no Director is entitled to any right to the variable component of his remuneration until a specific allocation has been made by the Remuneration Committee, under the terms and on the grounds established by this committee.

Pursuant to Recommendation number III.5, we disclose that the members of the management body did not enter into contracts, either with the company or third parties, which have the effect of mitigating the risk inherent to the variability of their remuneration established by the company.

### **72. Deferral of the payment of the variable component of remuneration, mentioning the period of deferral**

The payment of part of the variable component has been deferred to 2018, with this payment depending on the continued positive performance of the Company over the financial years of 2016 to 2018.

It should be noted that the payment of the variable component of the remuneration of the members of the Board of Directors has been intrinsically dependent on the net income for the year and development of corporate business. In this regard, it is important to remember that the Directors of TD,SA are "in-house people" and have been an integral part of the business for dozens of years, and that their remunerations are placed in the context of a general plan covering all employees.

### **73. Criteria underlying the attribution of variable remuneration in shares as well as on the holding, by the executive directors, of these shares, on any conclusion of contracts relative to these shares, namely, hedging or risk transfer contracts, the respective limit, and their relation to the value of the annual total remuneration**

Not applicable. The variable retribution is not attributed in shares and no contracts have been concluded with the characteristics described above.

**74. Criteria underlying the attribution of variable remuneration in options and indication of the deferral period and price for exercise of the option.**

Not applicable. The variable retribution is not attributed through options.

**75. Main parameters and grounds of any system of annual bonuses and any other non-cash benefits.**

The Remuneration Committee takes into consideration, in the attribution of annual bonuses, the performance and net income of the Company as a whole, as well as the overall activity of the management board, in view of the defined objectives, taking into account the conditions and values of the remunerations of its employees and the other employees of the company 100% held by it, "Teixeira Duarte - Engenharia e Construções, S.A.".

The annual bonuses were established taking into account the Company's long term performance, compliance with the rules applicable to the company's activity, restraint in excessive risk-taking and market knowledge, as already indicated above.

Furthermore, no relevant non-cash benefits were attributed to the Directors of the Company.

**76. Main characteristics of schemes for supplementary pensions or early retirement pensions for the directors and date on which they were approved at the general meeting, on an individual basis.**

Regarding any retired former Directors, it should be mentioned that the Remuneration Committee is responsible for establishing all the amounts paid in this context, under all circumstances.

As to the attribution of supplementary pension schemes, the actual Articles of Association establish, in article 22, transcribed below, the terms and criteria on which the Remuneration Committee should base the establishment of such amounts:

*"ARTICLE TWENTY-TWO*

*ONE - When people who have performed duties as Directors cease to hold office, the Company may grant them a retirement pension for life, whenever they meet one of the following requirements:*

- a) Have held that position in this Company for over ten years, counting, for the effect, the years of service under the same position at "Teixeira Duarte - Engenharia e Construções, S.A.";*
- b) Have provided, even with a shorter period of holding this position, a total of over twenty-five years of service to this Company, counting, for the effect, the years of service at "Teixeira Duarte - Engenharia e Construções, S.A."*

*TWO - The value of this pension will be determined taking into consideration the time or relevance of the services provided and the situation of the beneficiary, and should be reviewed on an annual basis but can never be greater than the highest remuneration received any given time by the permanent Directors.*

*THREE - By delegation of the General Meeting, hereby established, the Remuneration Committee referred to in Article Eleven will be responsible for the assessment of the cases submitted to it and establishing the values and other procedures for the award of pensions."*

The General Meeting reserves the right to appoint the members of the Remuneration Committee which is exclusively competent to decide on these matters.

The determination of the Memorandum and Articles of Association referred to above does not invalidate that the Remuneration Committee may submit such a matter to the General Meeting, however, this has actually never taken place as it has never proved necessary or appropriate in view of the established statutory rule.

For all due purposes, it is disclosed that, since the incorporation of the company in 2009, up to this date, no retirement benefit schemes established in favour of the members governing bodies have been approved at the General Meeting. Likewise, neither has any specific benefit been attributed, namely by the Remuneration Committee, for any termination of duties, in particular due to retirement.

#### IV. DISCLOSURE OF THE REMUNERATIONS

##### **77. Indication of the annual value of the remuneration received, as a whole and individually, by the members of the management bodies, derived from the company, including fixed and variable remuneration and, relative to the latter, reference to its different components.**

During 2015, the remunerations, in a broad sense, received individually by the members of the Board of Directors, were as follows:

Board of Directors	Fixed Remuneration	Variable Remuneration		Sub-Total	Compensation for Deployment	Total

In 2015, the total value of the variable remunerations paid by TD,SA represented 36.7% of the total value received.

During 2015, no pension rights were acquired.

Supplementary to the information indicated above about the values paid, it is disclosed that in 2015 the Remuneration Committee deliberated the attribution of variable remuneration sums to the members of the Board of Directors, part of which was paid in that same year - and is indicated above in the table - and part was deferred to 2017, depending on the continued positive performance of the Company throughout 2015 to 2017.

Board of Directors	Variable Remuneration Attributed in 2015		
	For 2015	For 2018	Total
Pedro Maria Calainho Teixeira Duarte	25,000.00	30,000.00	55,000.00
Manuel Maria Calainho de Azevedo Teixeira Duarte	10,000.00	25,000.00	35,000.00

Carlos Gomes Baptista	10,000.00	15,000.00	25,000.00
Diogo Bebiano Branco de Sá Viana Rebelo	10,000.00	25,000.00	35,000.00
Jorge Ricardo Figueiredo Catarino	5,000.00	10,000.00	15,000.00
<b>TOTAL</b>	<b>80,000.00</b>	<b>127,000.00</b>	<b>207,000.00</b>

**78. Amounts paid, for any reason, by other companies in a controlling or group relationship or which are subject to common control.**

During 2015, the members of the Board of Directors did not receive any remuneration, of any nature, paid by other companies that are in a controlling or group relationship with TD,SA.

**79. Remuneration paid in the form of profit-sharing and/or payment of bonuses and the reasons for the granting of such bonuses and/or profit-sharing.**

In the overall remuneration of the members of the Board of Directors, no sum is paid in the form of profit-sharing.

Indeed, the members of the Board of Directors are paid a sum as a performance bonus and distribution of profit, as deliberated by the Remuneration Committee.

As clarified above, the establishment of the bonuses was the result of the performance and net income of the Company as a whole, as well as the overall activity of the management board, in view of the defined objectives, having taken into account the conditions and values of the remunerations of its employees and the other employees of the company 100% held by it, "Teixeira Duarte - Engenharia e Construções, S.A.".

The establishment of the bonuses also took into account the Company's long term performance, compliance with the rules applicable to the company's activity, restraint in excessive risk-taking and market knowledge.

**80. Compensation paid or owed to former executive directors relative to their termination of office during the financial year.**

No compensation has been paid, or is owed, to any former executive Directors relative to their termination of office during the financial year. Furthermore, it should be noted that no Director terminated office during 2015.

### 81. Indication of the annual value of the remuneration received, as a whole and individually, by the members of the supervisory bodies, pursuant to Law number 28/2009, of 19 June.

All the members of the Supervisory Board receive, under the current system established in the Commercial Companies Code, and as determined by the Remuneration Committee, fixed remunerations for the performance of the duties inherent to their respective positions.

Thus, during 2015, the remunerations received by the members of the Supervisory Board of TD,SA were distributed as follows:

Supervisory Board	Fixed Remuneration	Variable Remuneration	Total Remuneration
Óscar Manuel Machado Figueiredo	30,000.00	-	30,000.00
Mateus Moreira	18,000.00	-	18,000.00
Miguel Carmo Pereira Coutinho	18,000.00	-	18,000.00
<b>TOTAL</b>	<b>66,000.00</b>	<b>-</b>	<b>66,000.00</b>

The total value paid to the Chartered Accountants Firm "MOORE STEPHENS & ASSOCIADOS - SROC, S.A." and other natural and legal persons belonging to the same network supported by the Company and/or by legal persons in a controlling or group relationship, relative to the only services provided, that is, Legal Review of Accounts and Audit services, was:

Chartered Accountants Firm	Remuneration
Legal review of accounts services for the Group	276,300.00
Other reliability assurance services	-
Tax advisory services	-
Services other than legal review of accounts	-
<b>TOTAL</b>	<b>276,300.00</b>

All the values listed above relative to the remuneration of the members of the Supervisory Board and Chartered Accountants Firm were paid during 2015, therefore there are no portions whose payment is deferred over time.

Furthermore, it should also be noted that, as established in the Policy of Remuneration of the Management and Supervisory Bodies and, simultaneously, in compliance with the provisions in Recommendation number III.2, the remuneration of the members of the supervisory body does not include any component whose value depends on the performance of the company or its value.

### 82. Indication of the remuneration of the chairman of the board of the general meeting for the year in question.

With the exception of the aforesaid Secretary of the Board of the General Meeting, all the other members of this body, under the current system established in the Commercial Companies Code, namely the provisions in 422-A, through number 3 of article 374-A, receive a fixed remuneration for the performance of the duties inherent to the respective positions, determined by the Remuneration Committee established in article 11 of the Articles of Association.

Under these terms, it is disclosed that the remuneration of the Chairman of the Board of the General Meeting was €10,000.00 (ten thousand euros) during 2015.

## **V. AGREEMENTS WITH REMUNERATIVE IMPLICATIONS**

### **83. Contractual limitations established for the compensation payable for dismissal without fair grounds of a director and its relationship with the variable component of the remuneration.**

There is no contractual limit established for the compensation payable for the unfair dismissal of a member of the Board of Directors, considering, firstly, that no contract is signed for the performance of the duties of the position of Director, nor is any agreement signed on any possible compensation payable for fair or unfair dismissal. The existence of a contractual limit under the terms referred to above would be incoherent, in view of the characteristics of the existing relationship between the Company and the members of its Management board.

It should be noted that, pursuant to Recommendation number III.8, no legal mechanisms have been established, apart from those stipulated by the law, for any indemnity or compensation, apart from that legally owed, to be payable when the dismissal of the Director neither arises from serious breach of duties nor from incapacity for the normal performance of his duties but, even so, can be attributed to inadequate performance.

It should be recalled that the Directors of the leading listed company of the Teixeira Duarte Group, formerly "Teixeira Duarte - Engenharia e Construções, S.A." and currently TD,SA, have always been "in-house people", whose career progression was developed within the Teixeira Duarte Group and are not managers from other companies or groups. Therefore, no situation of dismissal of a Director has occurred since its incorporation, nor has there ever been any payment of compensation for termination of contract, hence it is deemed inappropriate to establish any legal mechanisms of the nature described above.

### **84. Reference to the existence and description, indicating the amounts involved, of agreements between the company and members of the management board and senior managers, in observance of number 3 of article 248-B of the Securities Market Code, which establish compensation in the case of resignation, unfair dismissal or termination of the work relation following a change of control of the company (article 245-A, number 1, subparagraph I)).**

There are no agreements with these characteristics. The Company follows the policy of not undertaking any payments related to the early termination of the exercise of duties by the Directors or other senior managers, as well as not signing any agreements relative to these matters.

## **VI. PLANS TO ATTRIBUTE SHARES OR STOCK OPTIONS**

### **85. Identification of the plan and respective beneficiaries.**

There are no plans relative to the attribution of shares or attribution of options for the acquisition of shares.

### **86. Characterisation of the plan (conditions of attribution, clauses on the inability to dispose of shares, criteria relative to the price of the shares and price for the exercise of options, period during which the options can be exercised, characteristics of the shares to be attributed, existence of incentives for the acquisition of shares and/or exercise of options).**

As described in 85 above, there are no plans relative to the attribution of shares or attribution of options for the acquisition of shares, hence the present provision is not applicable.

**87. Option rights attributed for the acquisition of shares (stock options) whose beneficiaries are the company's workers and employees.**

As described in 85 above, there are no plans relative to the attribution of shares or attribution of options for the acquisition of shares, hence the present provision is not applicable.

**88. Control mechanisms established for any system of participation of the workers in the share capital to the extent that voting rights are not exercised directly by them (article 245-A, number 1, subparagraph e)).**

There is no system of participation of the workers in the share capital, therefore there is no justification for the existence of control mechanisms to the extent that the voting rights are not exercised directly by them.

## **E. TRANSACTIONS WITH RELATED PARTIES**

### **I. CONTROL MECHANISMS AND PROCEDURES**

**89. Mechanisms implemented by the company for the purpose of control of transactions with related parties (the concept arising from IAS 24 is used for this effect).**

All transactions between entities of the Teixeira Duarte Group with related parties are conducted at market prices. The concept is clear and undertaken by all business managers of the different areas of the Group who deal with related parties.

This attitude is transversal to all transactions of this nature, in other words, any transfer of resources, services or obligations between related parties, regardless of the existence of a price debit.

In addition to these general guidelines, all transactions between related parties are recorded electronically in the Group's overall supporting platform, which, apart from the actual business managers, is also accessible to the teams dealing with finance and accounting, consolidation of accounts and audit, as well as the actual management and, supplementarily, the supervisory bodies of the Company and Group.

It should be recalled, on this issue that the "Code of Ethics and Conduct of Teixeira Duarte" was approved by the Board of Directors of TD,SA on 24 April 2015, being applicable to all the entities integrated in its consolidation perimeter and management scope and to all their employees, including the members of the governing bodies.

This document establishes, in a new version, the transversal principles of action for all Teixeira Duarte Group employees and in this way, the Company's dealings with the related parties. This Code acts to strengthen and develop Teixeira Duarte's Mission and Values, with its compliance being mandatory for all employees and members of the governing bodies, and any breach may be subject to disciplinary proceedings.

An excerpt of this text on "Customers and Suppliers" is quoted below:

*- Selection Criteria*

*This Truth implies that Teixeira Duarte and its employees should act so that the decisions taken by customers and those to be taken relative to suppliers follow objective, technical and professional selection criteria, aimed at the efficiency of the decision and safeguarding the Company's interests, albeit in full Respect for these entities, regardless of their position in relation to the Company, in other words, rejecting any possible abuses of power or position, whether between companies or among the employees.*

*- Conflicts of Interest and Corruption*

*In the context of relations with customers and suppliers, we reiterate the need to assess possible conflicts of interest, as well as the prohibition of any corrupting behaviour, either actively or passively, including payments or receipts for facilitation or creation, maintenance or promise of irregular situations or favours.*

**90. Indication of transactions which were subject to control during the year under review.**

In this context and in view of the mechanisms referred to above, all the transactions with related parties were subject to control under the aforesaid terms. These transactions with related parties and their respective balances and additional information may be consulted in Note 29 of the Notes to the Consolidated Financial Statements as at 31 December 2015.

**91. Description of the procedures and criteria applicable to the intervention of the supervisory body for the effects of the prior assessment of transactions to be carried out between the company and owners of the qualifying holdings or entities which are in any relationship with it, under the terms of article 20 of the Securities Market Code.**

There are no procedures and criteria under the terms mentioned above since the type of operations carried out between the Company and owners of qualifying holdings are of a current character and for the performance of the activity, namely for financing by Banco Comercial Português, S.A., which is considered to be a matter of the exclusive responsibility and competence of the Board of Directors and which, naturally, concerns operations carried out under normal market conditions, whereby it is deemed inappropriate to subject these transactions to the prior opinion of the supervisory bodies.

**II. ELEMENTS RELATIVE TO BUSINESS**

**92. Indication of the location of the documents presenting the accounts with available information on business with related parties, in accordance with IAS 24, or, alternatively, reproduction of this information.**

The information on business with related parties, in accordance with IAS 24, is reproduced in Note 29 of the Notes to the Consolidated Financial Statements as at 31 December 2015.

## PART II - ASSESSMENT OF CORPORATE GOVERNANCE

### 1. Identification of the adopted corporate governance code

**The Corporate Governance Code to which the company is subject or has voluntarily decided to adopt should be identified, under the terms and for the effects of article 2 of the present Regulation.**

Apart from the applicable legal and regulatory rules, namely the Commercial Companies Code, the Securities Market Code and Regulations of the CMVM, especially Regulation number 4/2013, TD,SA has chosen not to adopt any Corporate Governance Code other than that issued by the CMVM in 2013.

**The location available to the public where the texts on corporate governance codes to which the issuer is subject should be indicated (article 245-A, number 1, subparagraph p)).**

The aforesaid Corporate Governance Code issued by the CMVM in 2013 may be consulted at [www.cmvm.pt](http://www.cmvm.pt).

### 2. Analysis of compliance with the adopted corporate governance code

**Under the terms of article 245-A number 1, subparagraph o), the statement on the endorsement of the corporate governance code to which the issuer is subject should be presented, specifying which, if any, parts of this code there is divergence and the reasons for this divergence.**

**The information to be presented should include, for each recommendation:**

- a) Information which enables appraising compliance with the recommendation or reference to the point of the report where the issue is discussed in detail (chapter, title, point and page);
- b) Justification for any non-compliance or partial compliance;
- c) In the case of non-compliance or partial compliance, identification of any alternative mechanism adopted by the company for the effect of pursuing the same objective of the recommendation.

### 3. Other information

**The company should provide any elements or additional information which, not having been presented in the preceding points, are relevant for the comprehension of the model and governance practices that have been adopted.**

The points included in number 2 should be developed simultaneously, since they are interrelated.

Among the 41 Recommendations comprising the aforesaid Corporate Governance Code of the CMVM, the Company does not adopt eleven and partially adopts six.

The table below provides the reproduction of the text of these Recommendations with the same numbering of the aforementioned Corporate Governance Code, followed by an indication of their adoption or not and reference to the point in this Report where such matter is described or where, observing the principle of "comply or explain", any non-adoption is justified.
